

Few Show Sorrow As They Behold Valentino's Body

Crowd Passes Coffin at Rate of 75 Per Minute—Very Few Reverent, or Sorrowful—60,000 Women and Girls Block Broadway—More Than a 100 Injured in Crush—Funeral Monday.

New York, Aug. 25 (AP).—The body of Rudolph Valentino, great lover of the screen, today was guarded by police and black shirted Fascisti because of the unprecedented and uncontrollable mobs that have thronged to view it, resulting in scores of injuries.

Police estimated that 60,000 persons, mostly women and girls, blocked upper Broadway before the undertaking establishment where the star lies in state, and that more than 100 were injured in the crush. Two plate glass windows were shattered, and several times mounted policemen

and several times mounted policemen were driven back by the crowd. Reserves were called out, and from 7:30 until midnight 135 patrolmen and 10 mounted policemen were required to keep order.

Women Scream and Claw.
More than 5,000 were waiting to be admitted to see the body when a heavy rainfall started. The crowd pressed against doorways and windows, and mounted police backed their horses into the crowd to break it up. Women ran screaming and clawing at each other. The first window was smashed. Ambulances were called, and several women were treated for injuries.

Few Look Sorrowful.
The casket containing the body was placed on the second floor way, to force spectators to pass single file climbing a stairway. All portable objections were removed from the reach of souvenir hunters. The funeral passed the coffin at the rate of 75 a minute, and few looked sorrowful or

Large crowds remained until the establishment closed at midnight and was announced that the body would be on view again today and tomorrow from 9 a. m. until midnight.

Crowds Continue to Come.
Great crowds thronged Broadway

ring the forenoon and passed slowly before his bier. The crowds were orderly today. None was allowed to linger before the body and only a fleeting glimpse could be had. One hundred and twelve patrolmen, twenty mounted policemen, twelve sergeants and four lieutenants are necessary to keep the crowd in

MAKE BLACK ART BLESSED SCIENCE

Billion-Dollar Annual Loss
to Agriculture Being
Checked by Poison.

Washington—Six tons of poison have been dusted from an airplane flying over Peninsula State park, Wis., according to an announcement from Sturgeon Bay, Wis. In an effort to save 500 acres of hemlock forest, Calcium arsenate was used in the air attack on worms which are said to have destroyed 6000,000 feet of timber since last fall.

"Poison has entered the ranks of big business within the last 15 years," says a bulletin of the National Geographic society from its headquarters in Washington, D. C. "Poison is now broadcast over cotton fields as well as forests. Death-dealing poison is the policeman of orchards and vineyards and a swatter of insects. It is guardian of water supplies, godfather to the grain crop, first assistant to the doctor, and aid to the veterinarian. Many agencies are booming the poison trade."

"On a certain block of Thirteenth street, S. W., in Washington, there is a three-story brick building. To all appearances it is a small apartment house. There is a Herculean task going on in this snug lodging with flapping awnings. It is the task of converting the black art into a blessed science."

"Occupying the third floor of the insecticide and fungicide bureau are the laboratories which test all the poisons of those two classes used in the United States. Killing compounds must too the mark of the 'pure poison' act passed by congress in 1910. These laboratories are poisons' best friend. They helped develop the calcium arsenate formula which is the hope of the South against the ravages of the boll weevil. More recently they have found how to adapt the powerful poison of a beautiful cyanide for the preparation of a poison gas which is death to pestiferous flies, but which will not harm the higher animals, including humans. Reduction of the \$1,500,000,000 loss which agriculture suffers every year from insects and fungi is the goal of the bug poisoners' black art."

Elements of Bad Character.

"Laboratory workers and all students of chemistry know that certain of the 92 elements are bad characters. Most of these elements, which are enemies to life, lead Doctor Jekyll and Mr. Hyde existences. Copper, that ready messenger boy of mankind, gets into bad company with sulphur. Copper-sulphate will kill a bug instantly. Chlorine ingratiates itself with mankind in the welcome guise of salt, but chlorine has vicious tendencies. Man hires this desperado chlorine to wipe out tribes of microbes in drinking water. In association with mercury it is useful in tanning, preserving wood, hat manufacture and embalming, but its poisonous proclivities are so pronounced that it can be classed as a strong antiseptic. Other good-bad elements are sulphur, lead, phosphorus and potassium. But the king of them all is arsenic. The debt the United States owes to arsenic for exterminating insects, fighting fungi, bacteria, rats, mice and gophers, is incalculable."

"One recent year more, than 14,000,000 pounds of arsenic was distributed to the country in insecticides and fungicides. Yet search the country over and you will not find an arsenic mine in operation, although the element is common. It occurs as a constituent of 130 minerals. The main supplies of arsenic are obtained as by-products of American safety engineering and American mines."

A Trap for Thieves.

"Copper sulphate, lime and water mixed together, is death to worms and a boon to the cabbage crop, the berry and currant crop, and other crops. It goes under the name of bordeaux mixture because its usefulness was discovered by an odd freak in a vineyard near the French wine town. A French vineyardist was exasperated with thieves who stole his grapes. So he made up a paste of chemicals which he put on the outside vines all around his garden. Insect pests were the real thieves of the Bordeaux grapevines that year—that is, of most of the grapevines except the vines in the French peasant's poison ring. A young scientist noticed the phenomenon. It gave him an idea. He experimented with the paste, determined the proper proportions, and the world has been using bordeaux mixture extensively ever since."

"Paris green, copper arsenate, for years the best-known insecticide, is gradually being displaced by new and better workers. There is calcium arsenate and there is lead arsenate. More than 17,000,000 pounds of lead arsenate was used last year chiefly for use in orchards."

"Simple chemical compounds are not the whole story. The benevolent poison trade is still dependent on the plant world, which was probably the original producer of deadly drugs. Strychnine is a product of the round, hard seeds from the fruit of the woad vine tree which grows in the West Indies. Then there is pyrethrum. It sounds like a new south paste. Pyrethrum swelled American import figures by \$1,681,000 last year, coming from such outlandish places as Mexico and "Citronechia in Delamata and 234 and 235th, Japan."

OCEAN VAST "FISHIN' HOLE" FOR NEW YORK'S MILLIONS

Hundreds of Large, Speedy Craft
Cater to Angling Urge of
City's Nimrods.

New York—New York like every small town, has its "fishin' hole." Here it is the Atlantic ocean, and good fishing may be enjoyed in a score of chartered locations.

There always has been fishing but until recently the nimrods had to organize small groups, charter an old boat and get their enjoyment in the face of discomfort and, sometimes, danger.

Now going fishing is as simple as taking the ferry.

Large, speedy craft cater to this one trade and regardless of the time of day the fisherman likes to drop his rod in the water, he can be accommodated.

The larger boats carry several score of men and on Sundays usually are crowded to capacity.

The boats as a rule are in charge of veteran fishermen, who gauge the tide, wind and weather, and can pick unfailingly the place where they are biting. Bass, fresh fluke and blackfish are among the leading catches.

The boats, however, would bring a smile to the face of a veteran off the Grand banks. There is little roughing it. Instead, the tired sportsman may sink into a heavily upholstered chair. The larger boats even have lounging rooms and dining rooms.

Nether is it necessary to worry about tackle, for along that section of the docks from which the boats depart are shops selling not only the proverbial "hook, line and sinker" but all other equipment.

It is not even necessary to dig for worms, if that bait is used, for there are any number of shops dealing in grubs and angleworms.

There is one item of the old pond, however, that cannot be duplicated. That is the tree on the mossy bank where one can stick the pole in the ground and doze off while the fish play around with the bait.

Man About to Be Wed Seeks Data From U. S.

Washington—A request for the government's specifications on matrimonial ideals and family sizes has been going the rounds among various federal agencies here in a vain search for an official charged with responsibility in such matters.

Addressed to the "Department of Domestic Affairs" and signed "John J. Hannon, 2214 Highland avenue, Chicago," it has finally reached the office of Daniel E. Gargen, secretary of the District of Columbia board of commissioners.

"I am a young man and am about to be married," the writer confesses. "Could you be kind enough to send me any literature in regard to ideals which the government advocates toward marriage and the size of the family the government wants one to have."

She Got His Number

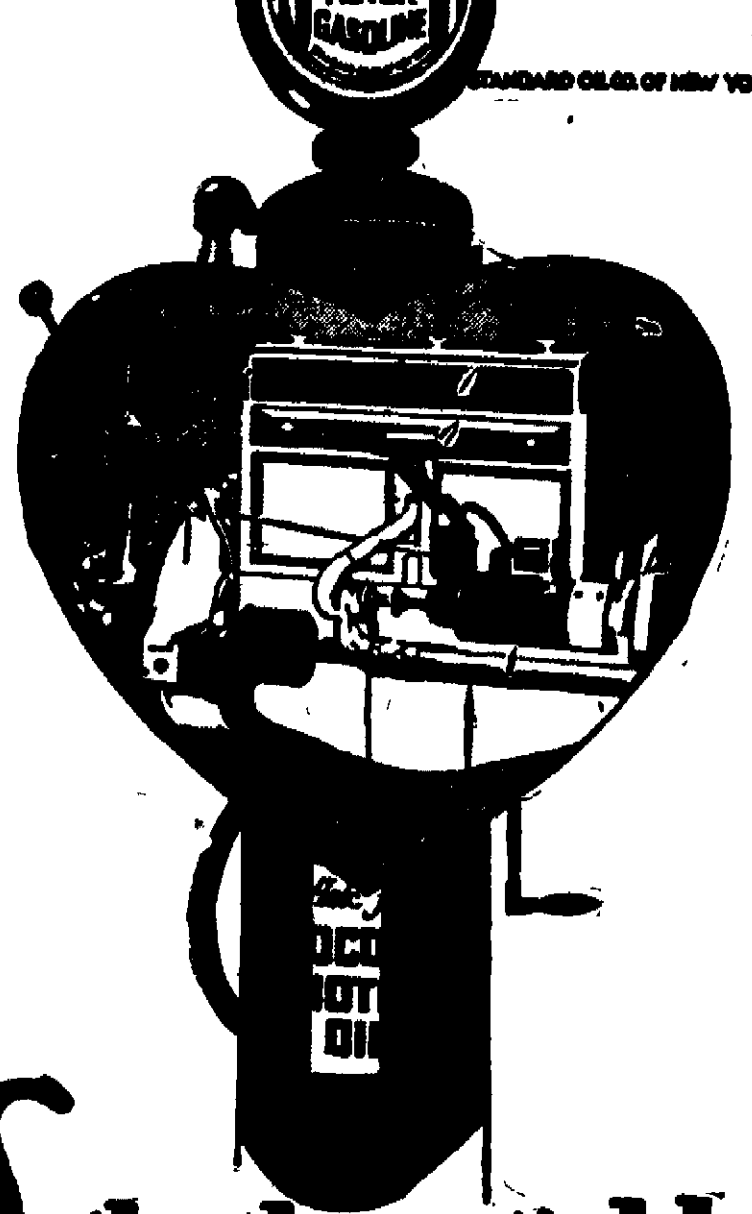

Blush brought a new shirt, and on a slip pinned to the inside found the name and address of a girl, with the words, "Please write, and send photograph."

"Ah," breathed Blush, "here is romance."

And forthwith he wrote the girl, and sent her a picture of himself. In due course of time an answer came, and with heart a-flutter Blush opened it. It was only a note.

"I was just curious to see," it read, "what kind of looking girl would wear such a cheap shirt."—New Orleans Times-Picayune.

FRANCIS BRYAN STOLEN FROM ITALIAN OPERA HOUSE

ROMA, Italy, Aug. 25 (AP)—A sword given by Napoleon to the opera singer Gladia Patti and other precious relics have been stolen from the theatrical museum adjoining the Scala Opera House which contains precious objects and documents referring to ancient and modern dramatic art.

The Thief, who is believed to have

hidden after the closing hour for visitors, took Napoleon's sword which was set with gems, a medal which once belonged to the celebrated Italian dramatist, Count Vittorio Alfieri, a golden crown owned by the famous dancer Marchionni and a historic collar and bracelet. Apparently after examining other relics, including a manuscript of Verdi's Requiem Mass, the thief left them behind.

There are no authentic figures as to the number of workers permanently out of employment in the United States.

Coolidge Still Talks Economy

Paul Smith's N. Y., Aug. 25 (AP)—The aim of the national administration to adhere to its economy program, was emphasized by President Coolidge today in discussing budget estimates for the fiscal year 1928 with Representative Madden, Republican, Illinois, chairman of the House Appropriations Committee.

The proposed expenditures for next year, Mr. Madden said afterward, could probably be a quarter of a billion dollars less than those for the present fiscal year, due to special increases this year for postal pay and soldiers' bonus.

Mr. Madden, who was a house guest at White Pine Camp overnight, left this noon for Chicago. Later he will go to Washington, to confer with Secretary Lord, of the budget. The House Appropriations Committee will begin its hearings on the 1928 supply bill about November 5.

Raymond Dunham, arrested on Monday, was arraigned before Judge Theodore A. Voss at Phoenixia Tuesday for having operated a motor vehicle while he was intoxicated at Chichester, town of Shandaken. He was found guilty, a fine of \$100 imposed and also a jail sentence of 100 days. If Dunham pays the fine the jail sentence will be suspended, but should he fail to settle he will be held in jail not to exceed 200 days. His license to operate a car was suspended according to law. Dunham, who is 40 years of age, is the father of nine children.

War Veteran Held On Forgery Charge

Walter L. Clarke of Ellenville has been committed to await the action of the grand jury by Police Justice Van R. Mofft to answer to a charge of forgery in the second degree. It is alleged that Clarke uttered checks signed with names of persons who are dead, some of the checks being cashed by Ellenville merchants. Monday Clarke called on Sheriff Wells and inquired if he was wanted. Unaware that a warrant for Clarke's arrest had been issued, he interrogated the man and from what he learned held him at the court house and notified State Trooper Ross, who later arrived with a warrant. On Tuesday Clarke was arraigned before Judge Mofft, who held him for the grand jury, committing him to the Ulster county jail. Clarke claims he served four years overseas with a Canadian regiment. He is married.

Harvard Honors Charles W. Eliot

Funeral Services Held in Appleton Chapel for "America's Foremost Private Citizen"—Distinguished Colleagues Present at Services.

Cambridge, Mass., Aug. 25 (AP)—Harvard University mourned today the man who for 40 years directed its destinies—President Emeritus Charles W. Eliot.

University buildings had closed their doors for the day and activities were at a standstill for the hour of the funeral in Appleton Chapel, where often in life he had worshipped. Distinguished colleagues of Dr. Eliot represented the institution which he had devoted the best fruits of his mind so zealously that he earned for himself the title of "America's foremost private citizen." President A. Lawrence Lowell, a cousin of the former president and his successor, was absent in Europe. Dr. Francis G. Peabody, his brother-in-law and the Rev. George A. Gordon of Belmont, Mass., had been selected to speak the final rites after which burial was to be made in Mt. Auburn Cemetery.

Protest Entry Of New Messiah

Herald-Tribune Says Enemies of New Messiah Have Protested His Entry on Grounds of Moral Turpitude—Friends Plan Huge Reception for Him—Will Attend Theosophical Convention.

New York, Aug. 25 (AP)—Enemies of J. Krishnamurti, the youthful theosophist messiah, have protested his entry into this country, alleging moral turpitude, the New York Herald-Tribune says today.

Complaints against him were reviewed yesterday by Immigration Commissioner Day, the paper says, but were rejected on grounds of insufficient evidence. The names of those opposing the landing today of the young Hindu from the liner Majestic were not disclosed, nor were the specific charges against him.

Make Plans for Reception. Meantime Krishnamurti friends made plans for a special boatload of reporters and photographers to meet on the Majestic before it docked. Two theosophist leaders and a representative of a lecture agency were included in this reception party.

The Herald-Tribune quotes Commissioner Day as saying that he expected further evidence and that "if it is more than presumptive proof of guilt they will hold him for inquiry."

What Messiah's Plans Are.

Krishnamurti and Mrs. Annie Besant, 80-year-old international president of the Theosophical Society, who is sponsor and guardian, plan to spend the night in New York, according to an announcement by their representatives, and then go to Chicago to attend a theosophical convention. Afterwards, Krishnamurti's plans call for seclusion on his ranch in California.

Insufficient Evidence. "I find," the Herald-Tribune quotes Commissioner Day, "from an examination of the complaints and evidence that Krishnamurti himself has been guilty of moral crimes. His examination on the ship may reveal it, but the charges do not."

VENTURES AND KNIFE THROWING AT ROTARY CLUB LUNCHEON

Rotary Club luncheon at the Y. M. C. A. this week drew a small attendance of members and a large attendance of visitors. Both players and some money were absent, but with the aid of visitors there was music and singing. A brief report by President Hathaway on the recent conference of executives held in Port Jervis was followed by a skit of a hand and knife-throwing exhibition by a professional who was once with Barnum's Circus.

Evangelist Killed by Brother-in-Law

Assaultant Claims that Evangelist Has Been Trying to "Wreck" His Home—No Charges Filed As Yet Against Brother-in-Law.

Springfield, Mo., Aug. 25 (AP)—The Rev. Edward Gillum, 50, who has been conducting evangelistic services at Sheridan, Mo., was killed last night by his brother-in-law, W. R. Leffer, local contractor. The fight took place at Leffer's home here.

Leffer used an Indian club to kill the Rev. Gillum. The "unwritten law" will be Leffer's defense.

According to Leffer's statement to the police he returned home and found the Rev. Gillum in the front room. According to his version, the Rev. Gillum has been trying to "wreck" his home during recent weeks. As he entered the room, he said, the Rev. Gillum reached for his hip pocket. As he did, Leffer seized an Indian club and crushed his skull. The Rev. Gillum did not regain consciousness.

Leffer called the police and an ambulance and went to Central police station. No charge was filed against him.

Mrs. Leffer corroborated her husband's story.

Two Killed in Santa Fe Wreck

Winslow, Ariz., Aug. 25 (AP)—A man and a woman were killed and eight persons injured when twenty-two cars of a Santa Fe work train were derailed a mile east of Thoreau, N. M., early today.

The dead are Conductor J. B. Tucker of Gallup, N. M., and Mrs. Joe Hansen, wife of the work-train foreman.

The dead and injured were removed to Gallup. The wreckage was expected to be cleared shortly before noon to permit main line trains to pass.

Kellogg Talks With Sheffield

Washington, Aug. 25 (AP)—Mexico's present troubles, particularly her dispute with the United States over the new land and oil laws, were discussed today at a conference between Secretary Kellogg and Ambassador Sheffield, just home from the Mexican capital.

The ambassador brought with him to the state department many first hand details of the religious controversy in the northern republic, and exact information about the attitude of the Calles government on this and other questions now disturbing Mexico City officials.

Nominally in the United States on vacation, Mr. Sheffield made his report to the state department his first duty. Later he probably will see President Coolidge at the summer White House at Paul Smith's, N. Y.

Three Killed in Vermont Accident

White River Junction, Vt., Aug. 25 (AP)—Three persons were killed and a fourth seriously injured early today when an automobile ploughed through a bridge and fell five feet to the Central Vermont railroad tracks in Hartland, near here.

One of the dead was identified as Thomas G. Mason, of Springfield, Mass., sales manager of the Peace Company, Inc. Another victim was Miss Bertha Lucia, 13, also of Springfield. The third person killed was a young woman about 20 years old. The police were unable to identify her. Harry Mason, believed to be the brother of the dead man, was taken to the hospital in Manchester, N. H., unconscious.

Old Idea Overruled

The old maxim that "silence gives consent" is not accepted by English law, under a recent ruling of the court of criminal appeals in England. A prisoner, accused of receiving stolen goods, had remained silent when asked whether guilty or not guilty, and his silence was taken as a plea of guilty. He was sentenced by the lower court to five years of penal servitude. But the court of appeals ruled that his silence was not adequate evidence of a plea of guilty by the prisoner, and discharged the convicted man.

Most oriental rugs have a wooden warp. They are apt to be cracked on account of the elasticity of the wool. For this reason, cotton is supplanting wool, especially for the large rugs made to order for the European and American markets.

The lowest bidder on the construction work was O. L. Wiedman with a bid of \$75,680; the lowest plumbing bid was that of P. C. Doherty Company of \$14,945.

Few Snakes in North

Snakes are extremely sensitive to cold. Many common North American snakes do not range much farther north than the Canadian border. Others stay south of the Ohio river. The range of the garter snake is known to extend northward to the region around Great Slave lake, and there are records of the appearance of this snake from the Yukon region. This snake has an exceptionally wide range.

Scientific Runner

The pheasant runs in "good form," a track coach would say. He runs with his head extended downward to lessen air resistance, with the long tail carried straight behind like a rudder, and throws his feet forward with every step, reaching for distance, as does the trained athlete of the cinder path. But at flying he is only mediocre. —Detroit News.

THE WHY, WHEN AND WHERE OF FASHIONS.

Wine and Women.

Should history repeat itself, the coming combination of wine (color) and women will prove a winning card, especially if held in the hand of fashion.

Each member of this union was considered portent of much power for good or bad, according to the point of view of one's leanings. Leaving poets aside for the moment, red wine, which is undoubtedly the most innocent part of this combination, has been regarded for centuries as a powerful remedy for ague or fever. Just about 600 years ago, the son of Edward II of England had smallpox, and he was actually cured, according to reports, by nothing else but gargling with red wine and having similar red-colored hangings around his bed. Even if such gargling is outlawed by the legal and medical professors today, the wine red hangings on women ought to keep away many ills.

There is one country at least where men always used great care in combining wine and women. In Spain, from times immemorial, women were never allowed to assist in the preparation of its famous red wines, as

THE LUSCIOUS PEACH

No more delicious dish for dessert can be served than one of sliced peaches with cream and sugar. When peaches are plentiful one likes to vary the method of serving.

A most appetizing pie may be made by baking a rich crust and when cold fill it with sliced peaches well-sugared; cover with sweetened cream, whipped.

A bird's nest pudding is another way of serving a peach pudding. Slice the peaches (those not too ripe may be used for this dish), cover with a rich biscuit batter and bake. Turn out inverted on a large plate, sprinkle with sugar, dot with butter and a sprinkling of nutmeg if liked and serve cut into pie-shaped pieces.

Peach Pudding.—Pour a cupful of hot milk over a cupful of dry bread crumbs and let stand five minutes; add half a cupful of sugar, the well-beaten yolks of three eggs and the stiffly-beaten white of one. Mix well and bake in a moderate oven until firm. Heap thinly-sliced peaches well-sweetened over the top and cover with a meringue made of two egg whites and three tablespoonsful of sugar. Cover the pudding with the meringue and bake a delicate brown.

Peaches With Rice.—Cook one cupful of rice until tender, adding milk at the last of the cooking; season with butter, add sugar to sweeten, then pour into a hollow mold. When ready to serve unmold, and fill the center with sweetened sliced peaches. Serve with sugar and cream.

Peach Chutney.—Peel three pounds of peaches, put them into a saucepan with a pint of mild vinegar, cook until tender. Pound in a mortar four ounces of onion, two ounces of garlic, five ounces of fresh ginger root; add the peaches, six ounces of raisins, one ounce each of white mustard seed and chili peppers, and six ounces of sugar. Simmer for ten minutes, adding more vinegar if needed. Bottle for winter use. This is especially well-liked by the English, though they use apple instead of peaches.

Red, the warm color of joy and pomp, served formerly an entirely different purpose. We read in a chronicle of 1460 that the kings of France never wore black for mourning, but red.

Eleanor Gunn On Fashions

The Tunic, of Various Lengths, Gives Dignity to the Two-Piece Mode, and the Jumper is Restricted to Sports and Informality.

As the time approaches when what is to be worn for fall takes on rather a more personal application, it becomes necessary to consider the various silhouettes and to have rather definite information as to skirt lengths, whether a frock is to be made in one or two pieces, and what is the status of this or that.

There are two schools, seemingly of opposing thought, with the two-piece frock as the bone of contention. When one faction admits that for sports, at least, frocks are still in two pieces, the other faction asserts that such frocks are the smartest for all occasions, not, mind you, excepting for evening. There is, as usual, something to be said for both sides.

The simple jumper seems hardly dignified or elegant enough to warrant its influencing any but sports

clothes, but this is not true of the tunic. A tunic may be really a regal thing, and when made of some of the several sumptuous materials in use for fall, it has every right to expect to be received in the most exclusive circles. There is this, too, in its favor, as with all gowns made in two pieces, the mode is in a mood for contrasting materials. What better way to indulge in contrasts than by having the blouse of one material and the skirt of another. It being understood that in some subtle way the material of the skirt is repeated on the blouse, as in the case of a revers facing, let us say?

Those who have an ear to the ground tell of velvets for fall, especially in combination with crepes of the satin-back genre or with chiffons or georgettes.

"Well," said the Peninsula Bear, "it is time they gave me a chance to speak."

"Here one has been talking and then another and they have not heard me yet."

"Whom do you mean?" asked the Admiralty Bear.

"Now, Admiralty Bear, please do not speak. That is the very thing I do not wish."

"I mean that the other animals in the zoo have been telling their stories, some of them have been telling them more than once, because for some reason or another they have attracted attention and people have asked to hear more about them."

"Or children have said they have heard about their stories they have told before which they have happened to miss and they would like to hear them again as far as possible."

"I haven't had a chance and people have been listening to what the others had to say and not paying any attention to me."

"How polite you are," grinned the Admiralty Bear; "I really cannot resist it!"

"All right, you may say that," said the Peninsula Bear. "But now I will tell about myself."

"I come from the Alaskan peninsula, and my beautiful light brown fur has always been admired and thought handsome."

"But it is of my size that I wish to speak. I am one of the very largest bears in any zoo in any city and in any land in the whole world."

"In fact, I believe I have only one rival."

"Now, that ought to give me fame, oughtn't it?"

"It ought," said the Admiralty Bear. "And were you not in the zoo your size might make some creatures rather nervous."

"I mean timid creatures whom you might meet out walking instead of staying here."

"Yes," said the Peninsula Bear, "nervous creatures might be made a little nervous, or rather a little more nervous by meeting me."

"Then there are my claws, my great, huge, thick, enormous, magnificent, dangerous claws!"

"You tell your story well," said the Admiralty Bear, "and it is a fine story of a noble size, handsome fur, large claws and many words."

"Ah, now I feel better," said the Peninsula Bear. "I have told my story at last."

"It is not what I would call a modest tale," said the Admiralty Bear. "Still it is interesting."

"Obliged," growled the Peninsula Bear. "Much obliged, Mr. Admiralty."

Hearing a Parade

After several vain attempts to work to the front of the wall, Billy gave up and yelled: "Let's go home. There's no fun des hearin' a parade and not seein' it."

PIE FOR EVERYBODY.

Enough If People Could Gather Berries Going to Waste.

Saranac Lake, N. Y., Aug. 25 (AP).—Every man, woman and child in the state of New York could have a generous cut of their favorite kind of berry pie if they could gather all the huckleberries and red and black raspberries which are going to waste in the Adirondack mountain country this year.

Such is the word which comes from persons who have hiked and climbed through acres of berry land and seen the small globules, far from the nearest habitation, ripening and falling to the ground. Old residents who know the wilderness sections assert that the annual berry crop has been merely scratched, in spite of the thousands of quarts which are picked every day.

In some districts entire families are engaged for days in picking berries for market. Motor tourists often note the camps of these people and wonder what they are. But the berries picked for market are mostly huckleberries, easily to be found in great quantities near railroads and highways.

So it is that immense patches of red and black raspberries, sometimes seen in clusters, are never visited by a single visitor, while the few that do visit come of them make no impression on the crop. In most cases there is no way of getting the berries out except to pull or pick them. After a journey in the hot sun the berries have been so shaken down that they require immediate cooling or use as pie filler.

Many times guides in the berryed over sections of the mountains will take visitors up on ridges from which the scene looks as if a great red or blue carpet were spread to

ward the distance, so thick are the berry patches. The same experience has been undergone oftentimes by mountain climbers, or others whose way leads them to the inaccessible parts of the woods.

In such sections, the berries are increasing, and according to wilderness dwellers, will continue to do so each year until countless bushes are destroyed by a forest fire or die from exposure to an unusually severe winter.

Discussion on Gasoline Tax

Bartholomew Motor Vehicle Committee Will Hold a Public Hearing at Rochester September 21. When Gasoline Tax Will be Discussed.

S. L. Strivings, Master of the New York State Grange, Mary Graves, of the New York State Tax Commission, Lewis O. Stapley, secretary of the Empire State Automobile Dealers and Merchants' Association, J. Corryell, president of the County Farm Bureau Association, and many other leaders in automobile, agriculture and business associations of the state, have signified their intention to be in Rochester on September 21, to attend the public hearing to be held by the Bartholomew Motor Vehicle Committee.

Mark Graves, state tax commissioner, has consented to give special attention to the interests of the committee and will be in Rochester on the 20th to confer with leaders of organizations with reference to the necessity of a gasoline tax. Mr. Strivings, of the New York State Grange, believes in the gasoline tax and has kindly offered to cooperate with the committee in bringing about a legislative bill that will meet with the approval of all organizations. W. Dewey Crittenden, chairman of the legislative committee of the Automobile Club of Rochester, has promised to submit a tentative draft of a bill on the gasoline tax and further states that his committee and his organization is willing to give and take in order to bring about legislation satisfactory to all.

C. C. Will Cooperate. Automobile Clubs of the state have been invited to attend this hearing together with representatives of the Chambers of Commerce, and a number have consented to send representatives. The gasoline tax is of vital importance to these organizations and it is hoped that something productive will result from the deliberations of so many business units from various parts of the state.

J. Corryell, county agent for the County Farm Bureau Association, states that he is much interested in the matter of a gasoline tax and will sit in the conference with a view of bringing about beneficial legislation. Charles H. Williams, secretary of the Erie County Farm Bureau Association, has been appointed by the executive committee of his association to attend the hearing and offer suggestions on the part of the Erie unit of the Farm Bureau Association. Frank J. Riley of Bennett, N. Y., secretary of the New York State Grange, will work with S. L. Strivings of Castle, the State Grange Master, in present-

ing the view of the State Grange on a gasoline tax.

Mayors' Committee Invited. Invitations have been extended to the mayors of the state of New York through the Mayors' Conference Committee of Albany, and it is expected that many of these executives will attend. This legislative committee is composed of Bert Lord of Atton, Ellis W. Bentley of Wadham, Wilson Messer of Corning, Homer E. A. Dick of Rochester, Irwin Steingut of New York city, M. Y. Ferris of Ticonderoga, Martin J. Kennedy of Amsterdam, John Knight of Arcade, Simon L. Adler of Rochester, speaker of the assembly, Joseph A. McGlinchey, Morris Bloch of New York city and Bernard Downing of New York city; this committee represents the senate and assembly of the state of New York and the majority of the committee have signified their intention of being present.

WARNING TO MOTORISTS PASSING THROUGH HIGHLAND

A profitable scheme for mulcting the autoist is in full bloom in the little town of Highland, N. Y., opposite Poughkeepsie, where a small board sign is placed on the hedge of the road going south from Kingston, and a few hundred feet from a lane, or cow-path, that juts into the main road (not crossing it). The denure sign is apt to be unobserved by many drivers, who have to be alert in keeping in line and avoid encroaching on the space of opposite traffic. The thrifty officials of Highland have installed a few men on the wall of the opposite side of the road, and the driver of any car passing this narrow lane while passing another car, even at slow speed, is taken before the justice of the peace, who holds court a few hundred feet down the road, where he is made to pay \$10, more or less. This trick if not nipped in the bud, may appeal to other communities eager to lighten their road tax.

Radio Compass Guides Naval Plane 45 Miles

Washington.—The successful guiding of a naval plane from a distance of 45 miles by radio compass bearings from a ship has been reported by the Navy department.

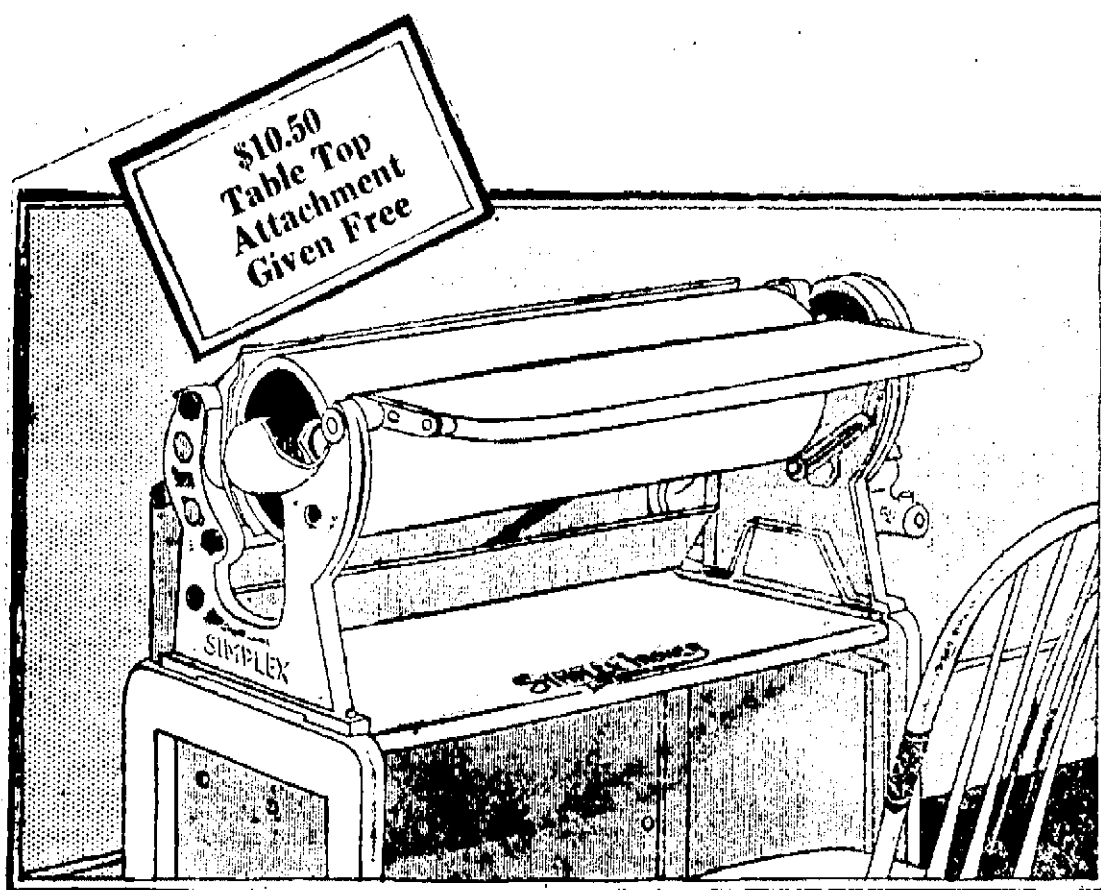

A plane from the cruiser Richmond went out 45 miles, the personnel of the ship not knowing in which direction. Signals were picked up by the plane and it was given the course back to the ship, corrections of the course being sent at intervals. Following these the pilot brought the plane directly over the Richmond.

American Legion 660,000 Claims Had Busy Year For Compensation

New York State Department Reports Many Notable Accomplishments, Outstanding Feature of Which is Raising \$700,000 for Endowment Fund.

New York, Aug. 25.—When the American Legion, Department of New York, convenes at their annual convention at Niagara Falls on September 9, reports will be made showing intense activity throughout the state and accomplishments surpassing practically every other year. It was announced at state headquarters, 302 Hall of Records, today.

By far the most outstanding accomplishment is the raising of \$700,000 for the American Legion Endowment Fund, the income from which has already supplied an executive secretary, employed to take care of child welfare together with relief for disabled ex-service men.

The national membership of the Legion will exceed by 100,000 last year's membership, which is an exceedingly healthy report.

State Commander Harry C. Wilder aided greatly in securing the passage of the Legion's legislative program in Washington this year, which brought relief to thousands of ex-service men of the World War.

"As the time approaches for my term of office to end," Commander Wilder said, "I cannot help but feel that the Legion in the state and throughout the nation is far advanced from their position of a year ago I look forward to another great advance during next year and the years to come. People of the nation are realizing more than ever that the American Legion is one of the most powerful, if not the greatest factor in our civic and community life."

The approaching convention in Niagara Falls promises to be one of the largest and most important that the state has ever held. Questions of national and local importance will be discussed, and election of new state officers will take place.

Besides the business sessions there will be many forms of entertainment offered to visiting Legionnaires. The Canadian veterans will entertain the entire American delegation at a mammoth dance, to be held in the refectory building on the Canadian shores. In addition to this, many sight-seeing trips have been arranged and a huge shore dinner will be held on the evening of September 10.

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with Eczema, Itches, Ringworm, Rashes and similar skin troubles. Zemo will usually give instant relief from itching and burning. It cleanses and soothes the skin and heals quickly and effectively.

Zemo is a wonderful, penetrating, disinfecting liquid and is soothing to the most delicate skin. It is recommended for daytime use because it doesn't show. Get it today from any druggist. Small size 50c or large bottle \$1.00.

Commissioner Hamilton made an interesting comparison of the benefits derived under the Workmen's Compensation Law and the results under the old Employers' Liability Law and for the purpose of his comparison took the years 1909 and 1924.

"In the 1909 investigation," said Commissioner Hamilton, "total financial receipts of all sorts—personal insurance or benefits, voluntary compensation from employer, settlement of claim or suit, and charity—were ascertained for 1,133 cases. If the average of such amounts in these cases be set up over against average compensation in the year ended June 30, 1924, the result may be shown in table form as follows:

Number of cases:	1909	1924
Temporary disability	294	56,326
Permanent partial disability	71	15,626
Permanent total disability	11	25
Death	57	1,109
	1,133	72,932

Average per case of all financial relief in 1909, and of compensation in 1924:

Temporary disability	\$42	\$118
Permanent partial disability	218	\$71
Permanent total disability	197	\$1,799
Death	774	\$,816

After all possible allowance has been made for the roughness of this comparison, it does reflect an immense change in the degree of financial relief in case of accidental injuries which the compensation system has brought about.

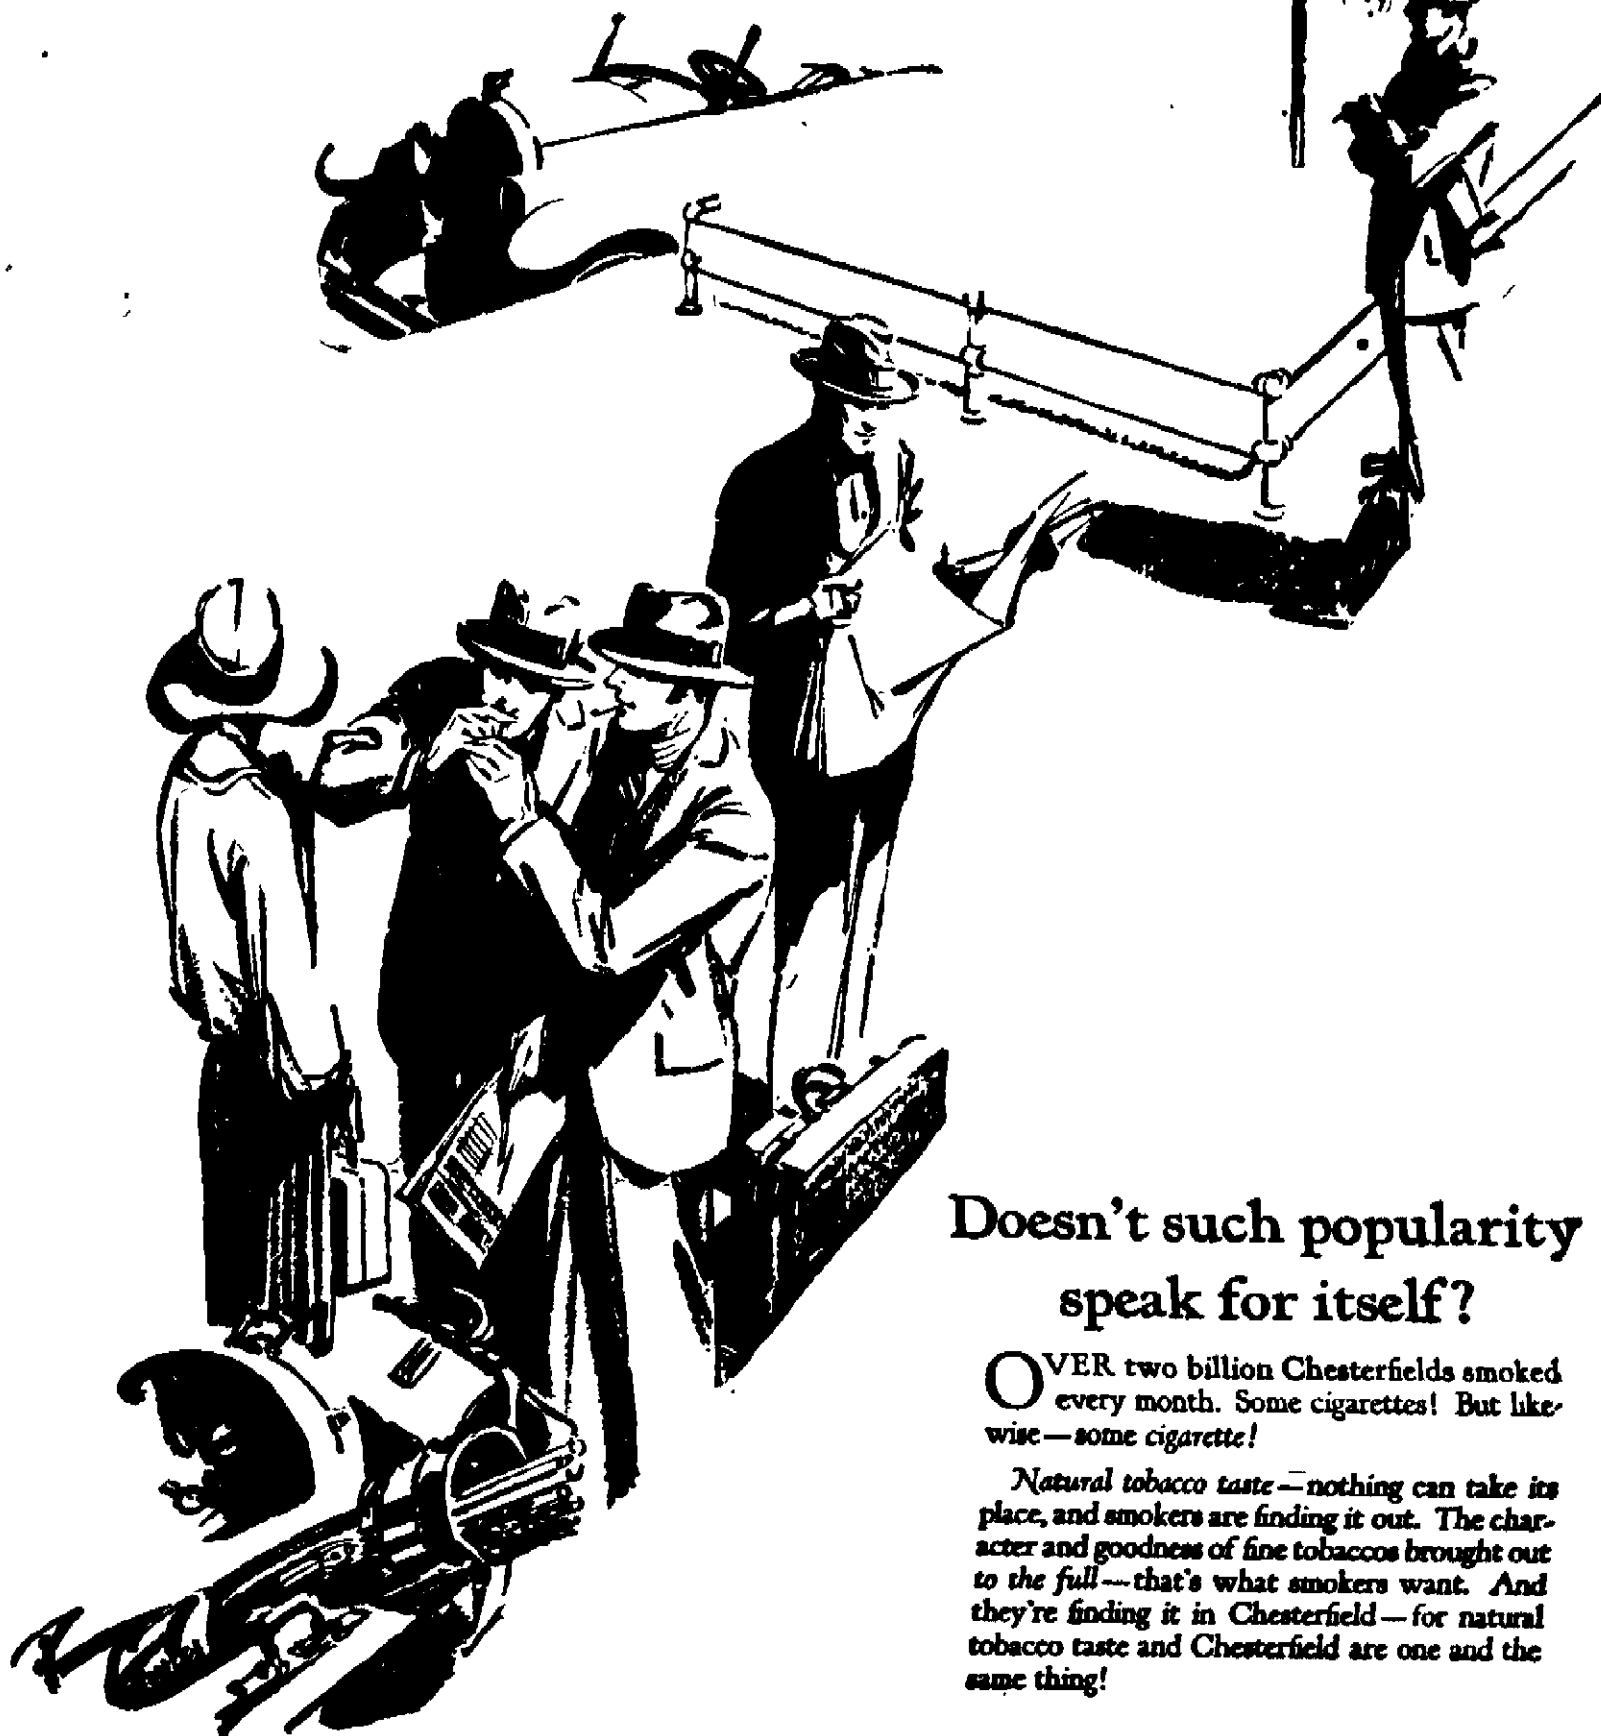

Comparison was also made of the promptness of relief under the compensation law with the delay under the old system of the employers' liability, and Commissioner Hamilton quoted from the special Legislative Committee of 1919 on whose recommendation the first compensation law was passed. This report said:

"In those few cases where the injured workman gets a recovery or a settlement at all, compensation with his loss, it is often only after a protracted law-suit. Such cases last from six months to six years in this state. For a workman's family deprived of its usual income by the death or disability of its chief wage earner, it is almost as disastrous to wait several years for a recovery as to get no recovery."

In conclusion Commissioner Hamilton said:

"Contrast with that situation the standard set by the present compensation law which requires that 'The compensation herein provided shall be paid periodically and promptly in like manner as wages', and thus 'The first payment of compensation shall become due on the fourth day of disability, on which date or within four days thereafter all compensation then due shall be paid, and the compensation payable bi-weekly thereafter.' This standard is very largely realized in actual practice. Nevertheless, the fact that there were cases where the above three checks for payment do not apply, it was nevertheless true in the year ended June 30, 1924, that in upwards of 90 per cent of all the cases compensated in that year the payment of compensation was begun within 14 days after the accident, which is an even higher degree of promptness of beginning compensation payment than the 14 days after disability begins specified in the law."

MARLBOROUGH

Marlborough, Aug. 25.—Mrs. L. P. Gaffney, son Albert and daughter Ellen, and Mr. and Mrs. Laura Adams of New Paltz, called on Mrs. Gaffney's mother, Mrs. Anna Hamilton, and her brother, Frank Hamilton, on Sunday.

Douglas Brinkley of New York city is visiting his sister, Mrs. James Barry.

Mr. and Mrs. Charles Daley of New York city are the guests of Mr. and Mrs. William Constant.

Mrs. Thomas Newell spent the week end with her son, Thomas, and friends in Jersey City.

Mrs. William Mackay visited her brother, Elting Martin, in Highland the past week.

Miss Nellie Ford of New York city spent the week end with Mrs. James Gallagher.

Mr. and Mrs. William and family of Yorktown spent the week end at the home of Mr. and Mrs. Cooper Clark.

Mr. and Mrs. Nicholas North entertained friends from Long Island the past week.

Miss Anna Amos, formerly of Marlborough, now of Phoenix, Arizona, is spending a short vacation at Shady Brook Park, and has given a few details of her interesting and eventful life. She was a resident here for about 18 years. She is now 60 years of age and lives on the farm owned by Hugh Norton. From there she moved to the village and finally left Marlborough as a voluntary worker. This did not mean that she was not working with the Indians and her work was called by her, when a voluntary worker was being started. She helped get the

place started and once more took up her work with the Indians. Later she went to Columbia University, where in six weeks she earned a degree to teach home economics. From there Miss Amos went to Phoenix, Arizona, where she has a school of Indian children. Miss Amos likes her work for the states that the Indian children are worth training, want knowledge, and are grateful for anything done for them and go home from school and try to educate their parents and friends.

Mr. and Mrs. Thomas Green, Mr. and Mrs. William Hafferty and Raymond Cooper spent the week end with Mr. and Mrs. John Green.

Clarence Terpin returned home Sunday after two weeks with the National Guard camped at Newburgh at their camp in the Adirondacks.

John Hamilton, Jr. George Husk, John Patton and Ralph Lockwood are enjoying a motor trip. On Thursday John Patton, Sr., received a card stating that they were stopped at Saratoga.

Mr. and Mrs. George Gardiner and daughter of Leonia, N. J., are visiting at the home of Mr. and Mrs. Crawford Harcourt.

Miss Margaret Barker of Newburgh enjoyed a week's vacation the past week.

Edward Hume of Jersey City returned home Saturday after spending a week with Mr. and Mrs. John Conroy.

Mrs. Fred Jackson, Sheldon Jackson and Miss Dora Ellis of Brooklyn are spending two weeks with Mr. and Mrs. William Martin and Mr. and Mrs. D. J. Scott.

Mr. and Mrs. Raymond Wymont and Miss Grace Wymont returned home last week after a trip of several weeks around Finger Lakes. While

away they visited Mrs. Charles Bailey, formerly of Marlborough, now of Ludlowville.

Mrs. Julia Ormsby spent last week in New York city.

Mr. and Mrs. Thomas Pierce of Savillon were recent visitors of Mr. and Mrs. E. J. Clark.

Women's Operas Successful

Four American women have written operas of enough merit to win comment in the large centers of the country, says a writer in the Washington Star. Mrs. Archibald Freer of Chicago wrote "The Jester," produced by the Chicago opera company; Mrs. Alfred Andrews wrote "Guido Ferrandi," produced by the same company; Clara Moore of San Francisco wrote "Norma," and Miss Odette Hochstetler of New York wrote "The Rose of Danzig."

Some Need Thick Veil

For exposure has a great tendency to conceal and throw a veil over the evil deeds of men—homelessness.

Prayed Through Hats

Sixty years ago it was customary for men in certain parts of Great Britain, on entering a church, to stand holding their hats before their faces and to utter a preliminary prayer "through their hats" instead of kneeling in the more orthodox manner, says the Dearborn Independent.

Balls Used in Voting

Voting by balls dates back to the time of the Greeks and Romans. A black ball was a vote against a candidate, a white one for him. This system was used in all political elections. Our word "ballot" itself is from the French "ballotte," meaning a little ball.

Irish Situation

It was a windy night, and the little man with what looked like two pounds of summer under his arm gave his parting shot. "The ocean," he said, expectantly, "that I never see your face again the better it will be for both of us when we meet."

Tagging Major League Bases

(By The Associated Press.)

After breathing the restless air at the peak of the National League for one whole day unmoored, the St. Louis Cardinals are again taking the dust of the world champion Pirates. Something in their attitude must have peevish Larry Benton, when they went back to work against the Boston Braves yesterday, for he dipped a paralyzing brand of baseball in the first game of their double-header, which removed their temporary crown.

Only four singles glanced from the Cardinal bats while the Warriors squeezed out a 2 to 1 victory.

In the meantime the Pirates were handing Burleigh Grimes their former spitball nemesis from Brooklyn, a fine 10 to 3 pasting. The Buccaneer runs came in five during the fourth and fifth innings, the first from Burleigh and the second from Rube Ehrhardt and Lee Williams. Ray Kremer registered his fourteenth victory of the season for the Pirates and Max Carey, former Buccaneer captain, could do nothing in his second appearance in Brooklyn toger to mar the occasion. The victory admitted the Pirates to first place again.

Although St. Louis managed to nose out a 6 to 5 victory over the Braves in the second half of the twin bill, they could do no better than climb back to a second place tie with Cincinnati.

The Reds were running their string of wins to ten by defeating the Giants again, 4 to 2. Misplays by Kelly and Terry made the Giants' sixth consecutive loss possible. Jack Scott held the Red Men to six hits. Two passed balls by Dubbles Hargrave and Horace Ford's error also figured prominently in two New York runs.

Rain stopped all but one contest in the American League. Rookie Crowder held St. Louis to three hits until the seventh and Washington beat back the Browns 9 to 6. The Senators had an easy time with the offerings of Ernie Nevers of Leland Stanford football fame.

Horse Racing at Rhinebeck Fair

The Dutchess County Fair, which is to be held at Rhinebeck from Monday, August 30, to Friday, September 3, inclusive, offers an unusual bill of trotting and pacing features. The purses offered this year are larger than ever before. The track has been entirely rebuilt and track critics who have inspected it now pronounce it in exceptionally fine condition and declare that record time will be hung out this year. Frank Cookingham, race secretary, announces that Dr. Kierman of Goheen, who officiated as starter at the Goheen and Monroe events, will preside in the judges' stand at Rhinebeck. Last year nearly 125 horses were entered in the racing events and indications are that the number will be greatly exceeded in the entries for this year's four day card. Several of the fastest horses of the Bay State and Orange county circuits have already been entered. The summary of racing events follows:

BASEBALL SQUIDS

"Babe Ruth," says a sports writer, "is no longer the entire Yankee team."

Wilbur Cooper, left-handed pitcher, was unconditionally released by the Detroit Americans.

Ike Kahdot, shortstop of the Ardmore (Mass.) team, made nine assists and seven putouts without a miss in a recent game.

While it may be true that Ruth has fallen off in his home-running, you'll notice the boys aren't passing anybody else to get to him.

The St. Louis Cardinals pitchers practice control by lining up before a wall at regulation throwing distance and aiming at certain spots.

Although Babe Ruth is near the top of the American league batting race and is far ahead of home-run sluggers, he has only five sacrifices credited to him.

Joe Klugman, second baseman of the Memphis team, hit in 21 successive games before he was finally stopped. Ray Caldwell of Little Rock turned the trick.

Little Al Nixon once played three innings each in right, center and left fields for the Boston Braves in a game against Pittsburgh, and had one put-out in each.

Washington university, at St. Louis, Mo., is the latest of the prominent colleges to drop baseball from its list of major sports because of lack of interest in the game.

Baseball's vocabulary is becoming complicated. Stanley Harris struck out intentionally to get five innings played before a storm broke and was fined for "stalling."

Freddie Brickell, sensational nineteen-year-old centerfielder of the Wichita Western League Baseball club, has been sold to the Pittsburgh Pirates for about \$15,000.

John C. "Red" Oldham, left-handed pitcher of the Pittsburgh National league club, and former Detroit Tiger, was released to the Kansas City team of the American association.

The venerable Jacques Fourrier tied the modern record for home runs in a single game by clouting three homers in a wild slugfest in which the Cardinals beat the Robins, 12 to 10.

Heinie Manush, who has supplanted Ty Cobb in center field for the Tigers, is slugging the ball so hard that the Detroit manager is not worrying about taking him out of the lineup.

Jimmy Uchirnske is a right-handed pitcher of Polish descent. He comes from McKeesport, Pa. He was a semi-pro when Washington got him, pitching for the National Tube works team of Pittsburgh.

Cy Young's attempt to set a world's record for consecutive games pitched was shattered in 1922 after he had made a run of 15 by a home run by Mark Baldwin of the Pittsburgh club, who was a regular 307 hitter.

When one of his teammates hit a long fly to the outfield and he is on third base, Mark Whills, infielder of the Hollywood (Calif.) club, goes back a few yards and takes a running start to the plate after the catch.

Fothergill and Manush, Detroit outfielders, have been tugging the ball of a great clip lately. They have supplied much of the club's offensive. Along with Hargrave they form one of the hardest hitting triads in the league.

Manush Makes Good

Harry Manush, better known among ball players as the "Tusculum Thunder," is playing a whale of a game for Detroit this season. His fielding has been startling and he is hitting the ball hard.

Colonials Defeat Greenfield Club

Philomen Defeat New Englanders By 5-3 Score—McMara Hits Good Game, Allowing But Six Hits During Contest—Peters Gets Three Hits.

Representing the town of Greenfield, Mass., the Shelburne Falls club again went down to defeat before the Kingston Colonials Tuesday by a score of 5 to 2. Johnny McMara had plenty to do with the winning of the match for the New Englanders could do nothing against his slants. Six hits were all the Massachusetts crowd could get from the Colonial singer. McMara had nearly everything his own way for it was the seventh frame before the New Englanders scored their first run. A single and a two-base hit gave the New Englanders one more marker in the final stage of the game.

Colonials Hit Hard.

A gentleman by the name of Cunningham was on the mound for the Shelburne Falls outfit. This twirler did not have quite the enjoyable time McMara had. The local stickmen clouted Cunningham for ten base blows. Johnny Peters was as active as a bullet during the contest as he collected three safeties. Jack Robins and McMara also took two hits apiece.

Philomen Score in Fourth.

The locals couldn't score until the fourth frame. Karis got to first on a boot and went to second on a sacrifice by Deegan. O'Brien connected with a single and Ted scored the initial marker. In the fifth Smith and Peters hit and Smith scored. Rob-

Busy Schedule For Colonial

The Colonials will travel a long and rocky path for the next few weeks with such clubs as the Brooklyn Royals, D. and H. Generals, Schenectady Police and the Penn Red Caps in the offing. All these clubs have been at the Fair Grounds before and are well acquainted with the characteristics of the Philomen and will do their best to keep the locals from building up another huge winning streak.

Gaebelein, of New York city, editor of "Our Hope." Dr. Gaebelein is one of the world's foremost Bible teachers and his writings have been translated into many languages. Evangelist Muir will deliver the closing address of the conference.

What is this world coming to? Even the movie people are interested in real estate developments.

Mrs. Lynch Hit By Automobile

Leo Krengloskie of No. 82 Yeomans street reported to the police department Tuesday afternoon that an automobile had struck and knocked down his sister-in-law, Mrs. Leo Lynch of No. 32 Van Gaasbeck street, injuring her about the head and knees. The accident occurred on Delaware avenue where the road makes the turn to go down into Ponckhockie. The number of the car was obtained and reported to the police.

Heavy Firing In Bulgaria

Sofia, Bulgaria, Aug. 25 (AP).—Heavy cannonade beginning yesterday about two o'clock in the afternoon across the Greco-Bulgarian frontier near the village of Alfratovo, southeast of Saloniki, Greece, continued until 7:30 o'clock last night. All communications across the Bulgaria border have been interrupted for several days and little information has filtered across with reference to reports that the garrison at Saloniki had been attacked and that a civil war had broken out.

The Berlins Still Interest Natives

"Mystery" Surrounding Their Plans For Going to New York Now Arouses Popular Interest—Part of Trip To Be Made by Train.

Alexandria Bay, N. Y., Aug. 25 (AP).—With the novelty of the mere presence of Irving Berlin, songwriter, and his wife the former Ellen Mackay, worn off, popular interest in the well known couple is whetted now by the "mystery" surrounding their plans for departure for New York city.

Yesterday the mystery became such that rumor had the Berlins in various places in New York, including Watertown, Syracuse and the bungalow cottage of Mr. and Mrs. Max Winslow in St. Lawrence Park near here. The latter proved correct, for last night the presence of Mr. and Mrs. Berlin in Alexandria Bay revealed the fact that they had not yet left the cottage on the St. Lawrence, where they have been guests of Mr. and Mrs. Winslow since Sunday. It is believed that the Berlins may start on their way to New York some time today. It is virtually certain that they will not travel all the way by automobile. They will probably drive to Watertown or to Syracuse, there to entrain for the rest of the journey.

News of the Day In Wall Street

New York, Aug. 25 (AP).—Steel mills in the Youngstown Valley are busy on specifications against contracts for rolled steel, operations being reported at about 85 per cent of capacity, more active demand involving tubes, tin plate, sheets, strip steel and merchant bars.

New bond offerings today were in small volume and included \$2,670,000 Central Railroad Company of New Jersey 4 1/2 per cent equipment trust gold certificates at par and accrued dividend.

Dillon Read & Company, who recently headed a syndicate which sold in the American market \$35,000,000 United States of Brazil 6 1/2 per cent external sinking fund gold bonds, announce the call for redemption of \$300,000 of these bonds. Those designated are payable October 1 at 100 against the issue price of 90, the redemption representing an aggregate profit of \$30,000 in less than six months.

Subsidiaries of the U. S. Steel Corporation are reported to be operating this week at an average of slightly more than 85 per cent of capacity, compared with about 82 per cent the week before, when actual input production exceeded 84 per cent.

Frederick W. Kavanaugh of Watertown, N. Y., former state senator, has been elected first vice president of the Murrayhill Trust Company, which will open for business shortly in New York city. He is a director of banks in Cohoes, Watertown, Schenectady and Mechanicville.

Holders of Tennessee Electric Power Company ten year 6 1/2 per cent debenture bonds of 1933, have been notified by the National City Bank of New York that the company will redeem on October 1 at 100 and accrued interest, \$25,500 aggregate principal amount of the bonds which have been designated by number. The drawn bonds must be surrendered by October 1.

Net earnings of the Philadelphia Company and affiliated corporations for the seven months this year were \$12,352,204 after depreciation and taxes before interest and other deductions, compared with \$10,822,243 in the preceding corresponding period.

Concert at Soldier Park. Through the courtesy of Foyth & Davis there will be a concert and a demonstration of the pantheon in the garden of the park of the Soldier Sanatorium this evening at 8 o'clock. An unusual number of good pieces have been selected for this occasion and the people of Kingston are invited to hear the recital of this new musical instrument.

The service commencing from 10:15 is a stronger than both track and garden.

Question Sanity of Atlanta Bank Head

Prosecuting Officials to Present Bills of Indictment to Grand Jury—Investigating Crash of Large Atlanta Bank—One Hundred Subordinate Banks Also Closed.

Atlanta, Ga., Aug. 25 (AP).—Bills of indictment in connection with the crash of the Bankers' Trust Company of Atlanta and the subsequent closing of nearly 100 small Georgia and Florida banking houses for which it acted as fiscal agent were held today by Ed Stephens, assistant solicitor-general, for presentation to the special grand jury investigating the bankruptcy proceedings of the institution.

Start Bankruptcy Proceedings. Meanwhile, bankruptcy proceedings against the Bankers' Finance Company of Jacksonville, Fla., were filed in Tallahassee, Fla., late yesterday by State Comptroller Ernest Amos.

Sixty per cent of the stock of the Jacksonville institution was owned by the Bankers' Trust Company of Atlanta, now in receivership, according to attorneys for the Georgia State Banking Department.

Manley Owned Jacksonville Stock. Virtually all of this sixty per cent was the personal property of W. D. Manley, president of the closed Atlanta banking house.

The proceedings were explained as having been taken to conserve assets and protect depositors of the bank.

Investigate Manley's Sanity.

Testimony yesterday before a special lunacy commission investigating the sanity of W. D. Manley, was dictated at many phases of the banker's life, his physical condition and his family life.

Mrs. Manley said her husband had not been rational for twelve years and that their Atlanta home was purchased with her money. His first business success she said, was made with funds furnished by her.

Four Killed When Auto Leaves Road

When Making Sharp Turn in Fog, Car Leaves Road and Crashes Into Tree—Three Killed Instantly—Three Others Critically Injured.

Bridgeport, Conn., Aug. 25 (AP).—Four young men were dead and three others lay critically injured in a hospital here today following an automobile accident in Nichols just before midnight. While making a sharp curve in a heavy fog, a rented car containing the seven Bridgeport youths left the road and crashed into a tree.

The dead are: Leonard Manero, 19; Carlo Monturi, 18; Tony Rich, an amateur boxer; and a fourth, not yet identified.

The injured are: William Pekar, 19, operator of the car; Stanley Aliecniewicz, and a third, also unidentified.

The crash demolished the machine and the sound of the impact was heard by a constable a half mile away. The men were extricated from the wreckage after a half hour's work and brought to this city in a passing bus.

Three of the men were believed to have been killed almost instantly and the fourth died upon arrival at the hospital.

To the hungry man, but what a sad disappointment when the "kitchen queen" quite suddenly and the table looks anything but appetizing to a social appetite. When in doubt as to what to do, use The Freeman's "Help Wanted" Cook-a-Word Department.

Three Things

In LUCKY STRIKE cigarettes you get all that can be in any very fine cigarette—also the added pleasure produced by the extra process of toasting.

You get the choicest Turkish and domestic tobaccos, properly aged and perfectly blended.

But here are three additional things:

LUCKY STRIKE tobaccos are

toasted for 45 minutes in super-heat. This (1) removes all "bite" and harshness. It (2) develops the hidden flavors of the world's finest Turkish and domestic tobaccos. Then (3) sudden chilling seals the moist fragrance in, insuring freshness.

"IT'S TOASTED" represents a costly extra process that adds the finishing touch to a wonderfully fine cigarette.

BECAUSE IT'S TOASTED

Ever since I organized the Mystic baseball club, I've been trying to get a game or series of games with the K. of C. club. After trying to locate the Casey's manager for sometime I finally got in touch with him the other day. I offered him several kinds of propositions for his club to meet my Mystics. He told me that his team had absolutely refused to play us. There are still a few weeks left yet to play tonight baseball. I am willing to show the fans who patronize games at the Athletic Field that I have a team that can beat the K. of C. Club anytime they meet. The Mystics play all comers. There isn't any team they refuse to meet. Hoping that the K. of C. management will get wise and give us a game. I am yours in sport.

LAST NIGHT on THE RADIO

Another wonderful night for the radio fans, whether they be of the kind that really enjoy a good program for its own sake, DX fiends or radio golfers. There was no static and reception was strong and clear.

The west seems to have developed two claim jumpers, both of whom were in evidence very strongly. WWAE, former wave length 241.5, now is on about 350, the dial setting being very close to that of WGY. The station is located at Plainfield, Ill. WSEC, Chicago, formerly 209.7, is now using about 233 wave length and was exceedingly strong.

The WOC minstrels might have sung more and devoted less time to alleged jokes, such as "What did Sir Walter Raleigh say to the queen when he spread his cloak in the mud?" "Step on it, kid."

Something was repeating WNAC on about 365 meters. It was not WNN and, unless it was off its wave length, not WNNY.

WQAI, San Antonio, reappeared after a long silence.

Among the best were WCX, where the Red Apple Club held high revel.

WQAI, WOK, WBBM, CKAC, WCB, WWJ, KYW, WQJ, WCCO, WJJD, WHT, WLW, WHAS, WSD, KDRA, CKCL and WLS.

An impassioned orator addressing a very appreciative audience drifted in on about 345 meters from Quebec, a station not listed.

Even WOAW was heard faintly so there is hope that Kansas City and Jefferson City will come back ere long, as the poets say.

The new radio program The Freeman is using is an improvement on the old one, although not perfect. One improvement will be the publishing of a complete Sunday program on Saturday.

Senator James J. Wadsworth, Jr., New York, will address the radio audience Saturday night at 7:30, standard time, from station WBBX, Utica. Other stations broadcasting the senator's address are WGY, WHAM, WMAK and WFL.

COMPETITION INCREASES ADVERTISING.

Babson Park, Mass. (Special)—Business has grown much in a competitive way during the past year or two as well as in other ways, and to date this year the competition among business men and houses shows signs of increasing. If possible, rather than letting up at all. For one thing, the keener competition has naturally resulted in more advertising.

TREND OF ADVERTISING N. Y. DAILY PAPERS

1921 1922 1923 1924 1925 1926

Taking, for example, the tendency to advertise in the New York daily papers during the past few years, we find quite a noticeable gain in advertising since 1924—and especially over the amount of newspaper advertising in that city back in 1921.

The more competition a business man finds he is encountering, the more anxious he seems to be these days to herald his own business far and wide. No longer can he afford to rely on merely the gradual enlarging of his business through old customers alone.

At Home of Aged. The regular monthly meeting of the board of managers of the Home of the Aged on Green street will be held at the home on Thursday afternoon at 3 o'clock.

"Just Tired."

"Uncle Joe" Cannon, for years Speaker of the House, denied that he was seriously ill. "I'm just tired," he said. He is spending his declining years at Danville, Ill.

Treating Nervousness

Those who have broken down from mental labor should have rest from wearing thought; but they should not be led to believe that it is dangerous to use their mental powers at all. Many are inclined to regard their condition as worse than it really is. This state of mind is unfavorable to recovery and should not be encouraged.
